### 3.3 Materials Selection/Collection Development Policy- Website Content

The Emmetsburg Public Library makes available a website to inform our patrons of the library's collections, programs, and happenings.

The website is neither intended to replace well-established websites and services, nor is it intended to be a collection of links to various topics.

Links to other sites that are solicited to be added to the website by a third party will only be added to the site at the sole discretion of the library director, and only then after taking into consideration the previous paragraph.

Due to the volume of requests, the library director and staff will not be available to respond to inquiries regarding the status of individual requests for placement on the library's website. Presence or absence of a link on the library's website is the only status report that can be offered.

Adopted by the Board of Trustees: October 2013; Amended: April 2019;
